News Release Wednesday, July 8, 2009

PRINCETON, IN – Gibson County is launching a new Community Information Service designed to deliver important and timely information to residents in our area using the latest technology. This service, created by Nixle, LLC delivers trustworthy and important neighborhood-level public safety and community event notifications by web, e-mail, and cell phone. Nixle is completely free, simple, and trusted.

Residents of Gibson County can now take advantage of Nixle! Nixle is a community information service that alerts you to public safety threats and community events via web, e-mail, and cell phone. Sign up at www.nixle.com to register.

Register now and learn more at www.nixle.com. Then share this new service with friends and neighbors to spread the word!

We are very excited to have you experience it for yourself. Nixle is a new community information service provider built exclusively to provide secure and reliable communications. Its authenticated service connects municipal agencies and community organizations to residents in real time, delivering information to geographically targeted consumers over their cell phones (via text messages), through e-mails and through Web access. Nixle is offered at no cost to all governments, their agencies and organizations, nongovernmental organizations and consumers.

Gibson County Sheriff R. Allen Harmon stated, "The free service that Nixle offers to law enforcement agencies will enable the Gibson County Sheriff's Department to send out community events and public safety alerts via web, e-mail, and cellular phone. This service is free to the community and we encourage Gibson County residents to sign-up for this free service. We will be including a link on our website to the Nixle Service. The best part of this service is that you can sign-up how you would like to receive alerts. You can choose to be notified immediately via text message to your cellular phone or e-mail. You can also visit the Nixle website directly to receive the alerts. I am pleased to have our agency use the Nixle service."

For now, Gibson County residents will be able to receive police-related information and municipal government information via Nixle. Channels providing other kinds of information are expected to be introduced in the future.
